**MAINTENANCE AND CARE CONDITIONS:**
Maintenance of hardwood floors with Silk finish assumes regular (daily if necessary) cleaning from dust and grit using a vacuum, followed by a thorough cleaning with Coswick Hardwood Floor Cleaner or other similar product. Floor surface areas that receive the most traffic and get worn down quicker, such as areas by the front door, hallways, kitchens etc., should be periodically renewed with special Coswick Restorative Oil. This product restores the protective surface film. Frequency of use depends on type of interior and intensity of foot traffic. For residential interiors, restorative cleaning should be done once in 3-5 years; for public and commercial interiors with intense foot traffic, it is recommended to use the product 2-4 times a year.
